

DOLWASIL IMPRÄGNIERUNG

Lösemittelhaltige, stark hydrophobierende Imprägnierung

Technical information Version

(1.0) 02/26

- Lösemittelhaltige Imprägnierung für mineralische Untergründe
- Wasserdampfdurchlässigkeit bleibt bestehen
- Nicht filmbildend
- Wirkt nicht verfestigend
- Hohe Alkalibeständigkeit

Beschreibung

Areas of application Die Hydrophobierung von mineralischen Untergründen verhindert die Durchfeuchtung, z.B. bei Fassaden und dadurch die Verminderung des Wärmedämmwertes und der Verschmutzung.

Core data

Properties	Delivery viscosity	Liquid
	Density	Approx. 0.81 kg/l
	Solid state	Ca. 10%
	Shades (stock shades)	Colourless
	Tintable	Nicht abtönbar
	Storage life	Store in tightly closed original container for 1 year at 5 - 25°C.
	Processing temperature	Do not process below + 5°C (object temperature), ideal temperature range 15 - 22°C.
	Adhesive strength	Protect from direct sunlight. Gt 0-1 (DIN EN ISO 2409)
	Highlight	Sehr starke Hydrophobierung

Substrate / Processing

Substrates Mineralische, saugfähige Untergründe wie Kalk-, Kalkzementputze, Ziegel, Kalksandsteine, Beton und Faserzement. Der Untergrund muss den üblichen Anforderungen entsprechend trocken, sauber, staubfrei und genügend verfestigt sein. Schlecht haftende Schichten, Sinterhaut, Schalöl usw. sind zu entfernen. Alkalität (max. pH 9) und Feuchtigkeit des Untergrundes (max. 3% Baustofffeuchtigkeit) sind zu messen.

Quality and environment

swiss  quality

Dold AG was founded on August 01, 1921 by Hans Dold in Wallisellen. Until Dold is still located at the same site and is one of the leading paint and varnish manufacturers in paint manufacturers in Switzerland. In Wallisellen, Dold AG develops and manufactures its innovative range of paints and varnishes for the construction painter as well as for industrial customers.

Swiss paint and varnish factory certified according to ISO 9001 / 14001 / 45001. Dold AG is one of the few one of the few paint and varnish factories which not only has its quality management, management, but also its environmental management system, as well as the occupational safety and health protection processes have been certified. These certifications are a clear commitment for Dold AG towards all its commitment to all its stakeholders.

Environmentally friendly products are a concern for DOLD. The foundation KMU Clima confirms Dold AG's contribution to voluntary climate protection. For this concern all direct emissions of CO₂ in form of electricity, heating and mobility are compensated by DOLD to a reforestation project in Uruguay. This is a long-term contribution to climate protection and for the sake of the environment.

The above information is for general guidance only. The working conditions beyond our control and the large number of different substrates mean that no claims can be made on the basis of this information. In case of doubt, we recommend that you carry out sufficient tests yourself. A guarantee can only be given for the consistently high quality of our products. All previous editions of this data sheet hereby lose their validity.
