Zurich Children's Hospital

The new Zurich Children's Hospital combines cutting-edge medicine with a child-friendly environment – featuring natural materials, thoughtful details and sustainable solutions. We are proud to have contributed to this landmark project with our high-quality coating systems.

Facts

Area	Painters / Decorators
Location	8008 Zürich
Year of construction	2023
Endclient	Kinderspital Zürich

Project details

Our **Eco Art** interior wall paint impressed the client with its optimal formulation and cost-effectiveness. It now covers all ceilings and walls in the patient rooms. For added durability, the walls were finished with **Latex Art in a silk matt sheen** – ideal for creating robust, easy-to-clean surfaces.

In the wet rooms and WCs, the seamless 2-component PU coating **AI DO** stood out with its hygienic, aesthetic finish. Door frames throughout the hospital were finished with **Doco-Spray**, while floors in technical areas were protected with **PUR Floorline Aqua**.
