SRF antenna, Zurich

Due to signs of wear and dirt build-up, the rooftop antennas at the SRF site were refurbished using DOLD coatings.

Facts

Area	Painters / Decorators
Location	8052 Zürich
Year of construction	2023
Endclient	Medienunternehmens SRF

Project details

For this project, it was essential to choose a coating that was both dirt-repellent and matt – to avoid reflections that could interfere with data transmission. The ideal solution was to coat the surfaces with **Docamin primer** and then apply **Durocal 10** using a spray application.

Thanks to our high-quality products, the result was a flawless finish – to the full satisfaction of Swiss media company SRF.
